CAREER SUMMARY

Inventive professional with an accomplished background in entertainment, technology, and driving human connection. Multiple endeavors while working for Broadway, Hollywood and on personal creative tech projects have allowed me to bridge these passions and reach a wider audience.

PROJECT EXPERIENCE

Wide range of projects utilizing JavaScript, React, Node.js, MonogDb, and Express. Highlights include an extensive card matching game where the user must match two Pokémon cards called from an API, and a movie quote guessing game which utilizes JavaScript functionality to match letters with a randomly generated quote.
